2018-2019 CMC3 Candidate Statements

Jennifer Carlin-Goldberg (President-Elect)

My name is Jennifer Carlin-Goldberg, math faculty at the Santa Rosa Junior College and member of CMC3. I am excited to run for President Elect of CMC3 for the next term of office. I have a lot to offer CMC3 and their members, I am responsible, enthusiastic, and eager to make an impact on the California Community College Mathematics community. Thank you!

Leslie Banta (Treasurer)

I have been a member of CMC3 since I started teaching at Mendocino College. I became interested in work with CMC3, in part, because of my involvement in AMATYC's Project ACCCESS program, of which I am a fellow (cohort 9). Having a strong regional organization is important for providing continued professional development to our members as we strive to refine our craft and serve our students well.

I have enjoyed my first term serving as Treasurer for CMC3. During this time, I have assisted with conferences, created budgets for board approval, managed income and expenses, given regular accountings to both the CMC3 and CMC3 Foundation boards, and filed required tax forms for both entities. I look forward to continuing to serve in this role and would appreciate your support in doing so.

Tracey Jackson (Secretary)

I have served the CMC3 Board in the capacity of Adjunct Advocate for a number of years and more recently as Secretary. I enjoy being actively involved with CMC3 and would like to continue to support the organization by being on the Board. I am familiar with the position of Secretary and I am able to fulfill the duties in a manner that will help keep CMC3 running smoothly.

Jay Lehmann (CMC3 Member-at-Large)

I have been the CMC3 newsletter editor for the past 16 years and have facilitated the Estimation Walk/Run for the past 15 years. It has been an honor to support CMC3, which hosts the best conference in the country. One of the perks of being on the board is that I get to work with others who are passionate about our organization and excellence in teaching.
