

2026 CMC³ Foundation Mathematics Scholarship: Nomination Packet

The CMC³ Foundation awards scholarships to qualified and deserving California Community College students who demonstrate promise and interest in the area of Mathematics and Mathematics Education.

To be eligible for nomination for a CMC³ Foundation Mathematics Scholarship, the student must meet the following criteria at the time the CMC³ Foundation Mathematics Scholarship application is submitted.

- The student must have successfully completed a minimum of 30 college semester units (or 45 quarter units), including at least 8 semester units (or 12 quarter units) at a [CMC³ region college](#).
- The student must currently be enrolled in a minimum of 6 semester units (or 9 quarter units) at a CMC³ region college.
- The student must either be enrolled in or have completed a course at the level of Calculus 2 or higher, if offered at their college. If there are extenuating circumstances that do not allow the student to enroll in Calculus 2 or higher, the faculty nominator should describe this in their recommendation.

To be considered for a CMC³ Foundation Mathematics Scholarship, an eligible student must be nominated by a mathematics faculty member at a college in the CMC³ region who is a current member of CMC³ at the time the application is submitted. A faculty nominator may nominate only one eligible student each year. The faculty nominator must email a complete scholarship nomination packet as a single PDF file to the CMC³ Foundation President, Shawna Bynum, at the email address foundation-president@cmc3.org by Friday April 17, 2026. **Submissions received after this date will not be considered.**

A complete CMC³ Foundation Mathematics Scholarship nomination packet includes:

- the Faculty Nomination portion completely filled out by the faculty nominator,
- the nominated student's responses to the information requested in the Student Responses portion, and
- a copy of the nominated student's *unofficial* college transcripts.

2026 CMC³ Foundation Mathematics Scholarship: Faculty Nomination

Tell the scholarship selection committee your reasons for nominating this student. Provide details that demonstrate why this student is deserving of a CMC³ Foundation Mathematics Scholarship.

2. Tell the scholarship selection committee about your leadership and service experience.

3. Tell the scholarship selection committee about your involvement with mathematics outside the classroom.

**Replace this page of the scholarship nomination packet with
a copy of the nominated student's unofficial college transcripts.**

**The nominated student's unofficial college transcripts
can be more than one page in length.**
